PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of hands-on internship experience building and leading development of an enterprise ERP platform. Proficient in both MERN stack and Spring Boot/React architectures, with demonstrated ability to deliver scalable, production-deployed web applications. Experienced in team leadership, REST API design, cloud deployment, and containerization using Docker.

EXPERIENCE

Full Stack Developer — Intern | Divi Global Service, Erode, Tamil Nadu
January 2024 – January 2025

- Led a team to design and deliver a full-featured ERP web platform, overseeing architecture decisions, sprint planning, and code reviews.
- Ensured on-time delivery of a production-ready system, improving business process efficiency for the client.

Salesforce Developer Virtual Intern
November 2023 – January 2024

- Completed Salesforce Trailhead certification modules covering CRM fundamentals, Apex programming, and data management.

PROJECTS

E-Commerce Platform — Tea Powder Company — yaseentea.in
MongoDB · Express · React · Node.js · Docker · Northflank

- Built a production MERN e-commerce site with admin dashboard, product catalog, inventory control, and order tracking.
- Designed RESTful backend APIs and integrated MongoDB for flexible product/order data management.
- Containerized with Docker and deployed on Northflank; site is live and actively serving customers.

Billing & Stock Maintenance Web Application — mrtex.onrender.com
Spring Boot · React · MySQL · REST API · Render Cloud

- Built a full-featured billing and inventory system supporting role-based access for admins, managers, and staff.
- Easy invoice generation, reducing manual billing effort and minimising errors in stock reconciliation.
- Integrated real-time stock update triggers via REST APIs with MySQL backend, deployed live on Render.

E-Commerce Platform — Aquarium Store — erodemarineaquarium.com
MongoDB · Express · React · Node.js · Docker · Northflank

- Developed a complete MERN stack e-commerce platform with admin panel, product/order management, and user authentication.
- Implemented secure checkout flow and shopping cart; containerized the full stack with Docker for consistent deployments.
- Deployed on Northflank with horizontal scalability; live site serving real customers.

EDUCATION

B.Tech in Information Technology — KSR College of Engineering, Namakkal
Graduated: April 2025 |

TECHNICAL SKILLS

Backend: Spring Boot, Java, Node.js, Express.js
Frontend: React.js, HTML, CSS, JavaScript
Databases: MySQL, MongoDB
AI Tools : Claude,Antigravity,Cline
DevOps & Tools: Docker, REST APIs, Render, Northflank, Git

CERTIFICATIONS

- Introduction to Artificial Intelligence — Great Learning
- Introduction to Deep Learning — Great Learning
